1. How to Register PhonePe

1.1 Introduction

PhonePe is a leading digital payment application that enables users to conduct secure financial transactions, including money transfers, bill payments, and mobile recharges. The PhonePe application is available on the Google Play Store for Android devices and the Apple App Store for iOS (iPhone) devices.

1.2 Prerequisites

- A smartphone with an active internet connection.
- An active mobile number linked to a bank account.
- The PhonePe application installed on the device.

1.3 Installation

- Open the Google Play Store (Android) or Apple App Store (iOS).
- Search for PhonePe in the search bar.
- Tap Install (Android) or Get (iOS) to download the application.
- Once the installation is complete, open the app.

1.4 Registration Process

Step 1 – Launch the App

- Open the PhonePe application on your device.

Step 2 – Mobile Number Verification

- Enter your **registered mobile number** and tap **Proceed**.
- An OTP (One-Time Password) will be sent to your registered mobile number.
- Enter the **OTP** to verify your mobile number.

The diagram illustrates the mobile number verification process in the PhonePe app, showing two sequential screens connected by a blue arrow.

Screen 1: Enter mobile number

- Header: Enter mobile number (with a help icon ?)
- Text: We will create an account if you don't have one.
- Input field: A text box with a dropdown menu showing the Indian flag and "+91", followed by a single digit "1".
- Button: A large blue button labeled "Proceed".
- Footer: A small text line: "By proceeding, you are agreeing to PhonePe's [Terms and Conditions](#) & [Privacy Policy](#)".

Screen 2: Verify your mobile number

- Header: Verify your mobile number
- Text: This verifies your identity and helps you securely log in to PhonePe
- Text: OTP sent to +91 9064849230
- Input field: Five empty square boxes for entering the OTP digits.
- Text: A blue progress bar followed by "Auto-reading OTP 0:26".

2. Key Features

2.1 Money Transfer

PhonePe offers three convenient methods to transfer money:

a) Transfer to a Mobile Number

- Open the PhonePe application.
- Tap on **Transfer to Mobile Number**.
- Enter the recipient's mobile number.
- Enter the **amount** and optionally **add a transaction note**.
- Select the source bank account and tap **Continue**.
- Tap **PAY** to initiate the transfer.
- Enter your **UPI PIN** and tap **PAY** to confirm the transaction.

Figure 5: Money transfer to mobile number

b) Transfer to a Bank Account

- Tap **To Bank Account**.
- Tap **To Account Number and IFSC**.
- Tap **+Bank account** to add new account
- Select **your bank**.
- Enter **Account Number** and **IFSC code** and Tap **NEXT**.
- Enter the **amount** and optionally **add a transaction note**.
- Tap **Proceed To Pay**.
- Select the source bank account and tap **Pay**.
- Enter your **UPI PIN** and tap **PAY** to confirm the transaction.

3. Troubleshooting

Transaction Failed / Pending

If a transaction fails or remains pending, check your internet connection and ensure sufficient bank balance. Wait 24–48 hours for automatic reversal before contacting support.

OTP Not Received

Ensure your SIM card is active and has network signal. Check if your mobile number is correctly registered. Try resending the OTP after 60 seconds.

UPI PIN Forgotten

Go to Profile → Bank Account → Reset UPI PIN. You will need your debit card details and a valid OTP to reset the PIN.

App Not Loading / Crashing

Clear the app cache (Settings → Apps → PhonePe → Clear Cache), ensure the app is updated to the latest version, or reinstall the application.

Bank Account Not Linking

Verify that your mobile number is registered with your bank. Ensure you have adequate mobile network signal during the linking process. Contact your bank if the issue persists.

4. Frequently Asked Questions (FAQ)

Q1. Is PhonePe free to use?

Yes, PhonePe is free to download and use. There are no charges for standard UPI money transfers. However, certain services like Fastag recharge or insurance may have applicable fees.

Q2. How many bank accounts can I link to PhonePe?

You can link multiple bank accounts to a single PhonePe account. You can designate one as the primary account for transactions.

Q3. What is a UPI PIN, and how is it different from an ATM PIN?

A UPI PIN is a 4–6 digit security code used exclusively for authorising UPI transactions within the PhonePe app. It is separate from your ATM or internet banking PIN and is set during the bank account linking process.

Q4. Is it safe to use PhonePe?

Yes, PhonePe uses 256-bit SSL encryption and is regulated by the Reserve Bank of India (RBI). All transactions require UPI PIN authentication, ensuring a high level of security.

Q5. What should I do if I send money to the wrong number?

PhonePe does not support automatic reversal for incorrect transfers. You should immediately contact PhonePe customer support at 080-68727374 or through the in-app Help section and raise a dispute.

Q6. Can I use PhonePe without an internet connection?

No, PhonePe requires an active internet connection (mobile data or Wi-Fi) to process transactions
